

ENVIRONMENTAL

POLICY STATEMENT

McQuillan Companies incorporates a diverse range of activities including road surfacing, civil engineering, demolition, quarrying, bituminous materials, hazardous and non-hazardous waste management, analytical chemistry and outdoor cleaning, maintenance and landscaping services.

McQuillan Companies believe it has an important duty to ensure best practice in environmental performance in all its business operations and to provide the necessary organisation, commitment and training to fulfil this obligation. Environmental management is therefore an integral and fundamental part of our everyday business and contributes to sustainable development. We are committed to monitoring and continual improvement of our environmental performance, pollution prevention and environmental protection.

As part of our on going commitment to the environment and the communities in which we operate, we have established a policy to ensure that we identify and achieve our requirements. Through the implementation of this policy we are committed to ISO 14001 as a management tool to manage environmental issues and to ensure that consistent standards are achieved across our range of activities.

McQuillan Companies will:

- Minimise environmental impact and aim to enhance the positive aspects of its operations, products and services on the natural and social environment through effective planning and management.
- Meet all applicable legal requirements, regulations and standards and where possible, exceed these parameters with monitoring to ensure compliance.
- Demonstrate efficient use of energy, waste and raw materials, taking appropriate opportunities to minimise waste and implement the waste hierarchy as a guide when determining the best practicable environmental option.
- Manage landholdings so that biodiversity is protected and enhanced.
- Ensure that, where practicable, energy efficient techniques are utilised throughout the company's activities.
- Liaise with, listen to and respond to the needs of government, local communities and stakeholders.
- Work to improve the standards of the sectors in which the company operates, enhancing environmental awareness and commitment amongst staff through training, and encouraging the adoption of sound environmental principles amongst contractors, suppliers and customers alike.
- Promote the responsible sourcing of construction materials in line with BES 6001.
- Report and review key environmental impacts of operations and progress against targets for reducing energy consumption, CO2 emission, waste and water usage.
- Communicate this policy to everyone working for and on behalf of McQuillan Companies.
