

SUSTAINABILITY & ENVIRONMENTAL POLICY

McQuillan Companies incorporates a diverse range of activities including road surfacing, civil engineering, demolition, quarrying, bituminous materials, hazardous and non-hazardous waste management, analytical chemistry and outdoor cleaning, maintenance and landscaping services.

McQuillan Companies are committed to putting sustainability at the forefront of all business operations by implementing 3 key aspects; incorporating practices that are sustainable for protecting our planet and our people, and by incorporating practices that are sustainable in the production of our products. We are committed to the continual review and improvement of our environmental performance, pollution prevention and environmental protection practices.

As part of our ongoing commitment to Economic, Social and Environmental Sustainability, we have established a policy which is dedicated to incorporating sustainable practices. We are committed to the decarbonisation of our businesses, and to the re-establishment of biodiversity; ensuring that the highest environmental practices are utilised in all aspects of our works. Through the implementation of this policy, we are committed to ISO14001 as a management tool to manage environmental issues and to ensure that consistent standards are achieved across our range of activities.

McQuillan Companies:

- Is committed to transitioning to Net Zero by 2050 in line with Northern Ireland and UK legislation and will continue to track and measure its carbon footprint in line with Green House Gas Protocol.
- Minimise environmental impact and aim to enhance the positive aspects of its operations, products and services on the natural and social environment through effective planning and management.
- Meet all applicable legal requirements, regulations and standards and where possible, exceed these parameters with monitoring to ensure compliance.
- Manage landholdings so that biodiversity is protected and enhanced across McQuillan Companies sites and depots.
- Ensure that, where practicable, energy efficient techniques are utilised throughout the company's activities, including continuing the transition of company vehicles to electric/hybrid.
- Liaise with, listen to and respond to the needs of government, local communities and stakeholders.
- Work to improve the standards of the sectors in which the company operates, enhancing environmental awareness and commitment amongst staff, contractors, suppliers and customers alike.
- Promote the responsible sourcing of construction materials in line with BES 6001.
- Communicate this policy to everyone working for and on behalf of McQuillan Companies.
